### Vote Transfer for the General Assembly 2023 on May 27th and May 29th 2023

Members who are able to attend our General Assembly 2023 via Zoom can exercise their membership rights by themselves.

Members who **are not able to attend our General Assembly via Zoom** are allowed to transfer their vote to any other member who will be digitally present.

The **vote transfer** is also this time combined with a technical hurdle. During the voting process only one vote can be counted per each connected media. How can one member exercise the own voting right as well as the vote transferred to him/her? This is only viable when this member is connected to Zoom with two electronic units (for example laptop and smartphone).

According to our statutes there can be only one vote transferred to each member. Please inform the member to whom you would like to transfer your vote to, in order to ensure that no vote gets lost!

In case that that this is not possible, please enter a second and third priority so we have the best possible chance to make vote transfers work.

This is to state that I \_\_\_\_\_ (name) transfer my vote to:

<b>Name</b> (please enter names in the order of your priorities)	<b>Individual member</b> (please check if applicable)	<b>Institutional member</b> (please enter name of Organisation if applicable)
